

ASEAN Network for Combating IUU Fishing (AN-IUU)

Workshop on Strengthening Regional Fisheries Governance and Technology Integration to Combat IUU Fishing in Indo-Pacific, Bangkok, Thailand

Background

The ASEAN Network for Combating IUU Fishing (AN-IUU) developed a platform for both effective information sharing and an operational network that enables easy and effective communication among national authorities in AMSs.

Request / Alert / Share / Receive Information

Objective

AN-IUU Interactive Platform

To Support MCS

To enhance regional cooperation on information sharing through an online interactive platform, as well as on the use of Monitoring, Control and Surveillance (MCS) information

Capacities building

To enhance capacities and capabilities of ASEAN Member States (AMS) in the fight against IUU fishing through the dissemination of best practices, especially on MCS surveillance and investigation activities and experiences.
